

INDIANA AND MICHIGAN STATE HAPPENINGS

MOURNERS VIEW
BODY THROUGH WINDOW

Diphtheria Victim at Elkhart
Buried in Strict Privacy—
Thirteen Other Cases.

News-Times Special Service:
ELKHART, Ind., Aug. 30.—Strict privacy marked the funeral of Miss Florence Swartzell, 414 Sherman av., 20 years old, a diphtheria victim, who was to have been married to Iven L. Henrich some time during the coming October. At nine o'clock friends and relatives were permitted to view the body through one of the windows of the house just before the funeral took place.

In all 13 cases of diphtheria are under quarantine in the city. Since they are all in widely separated parts of the city it has been impossible to ascertain the probable origin of the disease. It is maintained by health secretary, Dr. L. A. Elliott, that there is no cause for an alarm since all cases are well under the control of the physicians. He adds that "all possible precautions have been taken to prevent a spread of the disease."

All of the employees of the Home Telephone Co. at whose office Miss Swartzell was employed have taken the anti-toxin treatment. As an added preventative the exchange is fumigated daily.

The heads of the departments of the city government under the direction of Mayor F. E. Smith assembled in the council committee room yesterday afternoon and submitted approximations of the probable cost of operating the city during the coming year.

After the reports were in the work of making up the city budget was undertaken. It is doubtful whether the tax levy necessary to make the 1917 expense account will be any lower than last year's levy which was \$1.64.

Directors of the Elkhart Driving club this afternoon decided to stage a big race meet at the driving park on September 20, 21 and 22. Three races will be run each day and prizes aggregating \$3,100 will be offered.

Richard Jack, under arrest in Baltimore, on a charge of child desertion preferred by his wife in this city, will probably be released from custody, as his wife is financially unable to go to Baltimore to appear against him in his fight against extradition.

The case was to be called to trial some time today. The presiding judge notified local authorities that the prosecuting witnesses would have to be present today or Jack would be released.

The case is an unusually pathetic one as Jack's wife is a cripple.

John Carbelli, still weak from the bullet wound inflicted by Officer Leonetti, when the former tried to evade arrest by running away after an alleged assault on Peter Botte at a wedding celebration two weeks ago, was assisted into the city court for trial this morning, but was returned to his cell after it was learned that his attorney, R. E. Pretor, was out of the city.

John W. Hutton, a stockholder and vice president of the Elkhart-Goshen Dry Cleaning Co., was arrested late this afternoon by Officers Donner and Fonda on a charge of embezzlement preferred by R. H. Chandler, secretary-treasurer of the company, who alleges that Hutton has misappropriated more than \$100 of the company's funds.

Louis A. Gysi of 616 West Marion st., delivery man for the Lusher grocery, was arrested Monday night by Officers Sheldahl and Hummel, for driving his machine with the glaring headlights on. This morning the case was continued in the city court, when Gysi asserted that he had snapped his headlights on only long enough to make the curve at Harrison and Franklin sts. safely. City Attorney Hall said he doubted if the police would make an arrest under such circumstances and if they had Gysi should not be prosecuted.

Dr. Anna Kresger of Goshen yesterday reported the disappearance of her husband, Henry Kresger, with valuables worth \$1,200 belonging to her, but whose ownership he disputes with her. She says his queer actions are due to a mental disease the result of alcoholic indulgences.

While Frank Law, who lives alone in a cottage on the south bank of the St. Joe river a mile west of Elkhart, was in the city Monday night, someone pried the screen door of his home from the hinges, unlocked the door, and entering the house, stole \$30 from a dresser drawer. Law discovered the theft upon his return home, and this morning he called the police. Chief Ribbet and Officer Leachman conducted an investigation but found in clue. Law works at the Swift repair shop in the New York Central railroad yards.

R. E. Clark, proprietor of the Clark drug store at 429 South Main st., reported to the police last night that sometime during the afternoon someone had taken a handbag belonging to Mrs. Clark from a desk in the store. The bag contained \$8 or \$9, a bank book, some statements, fancy work and a doorknob.

FACES MURDER CHARGE

Arson Witness Taken to Illinois
Accused of Shooting Cashier.

News-Times Special Service:
TRAVERSE CITY, Mich., Aug. 30.—Harry Powers, main witness for the people in the Germaine arson case, was taken to Rock Island, Ill., by Sheriff Jesse Hanna and States Atty. Floyd E. Thompson, to answer to a charge of murder and robbery in a bank holdup in which the cashier was killed in 1912.

Powers was arrested in February at Detroit, and brought here, suspected of knowing inside information about the burning of the old Germaine residence. He escaped in April, cutting his way out through the steel and brick wall of the local jail. He was captured in Charlevoix 10 days later. Powers' partner in the Illinois crime, Clyde Stratton, a well known crook, escaped from the Illinois state penitentiary at Joliet five weeks ago. Powers was arrested as a witness in the Germaine arson case on a charge of breaking into summer cottages last winter, but has never been arraigned on that charge. Last summer he was entertained at some of the best homes in Charlevoix.

SAVES WASHINGTON'S
HISTORIC QUARTERS

Grand Rapids Man Purchases
Place at Dobbs Ferry,
N. Y., for \$60,000.

News-Times Special Service:
GRAND RAPIDS, Mich., Aug. 30.—In order that Washington's headquarters at Dobbs Ferry, N. Y., the house in which the papers obligating Great Britain to give up all claim upon the 13 colonies, were signed at the close of the Revolutionary war, might not be converted into a roadhouse, Messmore Kendall, a former resident of Grand Rapids, has purchased the place at a cost of \$60,000.

Now that he has saved the historic place from becoming an undesirable resort, Mr. Kendall plans to spend about \$25,000 more in restoring it to its original condition and may give it to the state or the nation. It is in this house that Gen. Washington, Sir Guy Carleton, then commander-in-chief of the British army, and Gov. Clinton met May 3, 1783, after the suspension of hostilities, to settle the terms for disbanding the two armies.

Messmore Kendall was born in Grand Rapids in 1872. He is the grandson of Col. I. E. Messmore and John Kendall, sr., both prominent early residents of Grand Rapids. His father was John Kendall, Jr., also a well-known former resident of the city. It is perhaps due to the fact that he is a descendant of Revolutionary patriots that his patriotism has recently become more intensely inspired by the purchase of the house at Dobbs Ferry. His great-grandfather, Dr. Joseph Goodhue, was at one time surgeon general in the Revolutionary army, and at the first call for volunteers, 263 Kendalls responded and served during the first great American war.

Mr. Kendall attended the Grand Rapids public schools while a boy, but later went east with his mother. During his young manhood, he herded cows in the west, and later graduated from Columbia university. After his graduation, he was secretary to U. S. Sen. John L. Wilson, and later to Bellamy Storer, former minister to Austria-Hungary. As attorney for Jennie M. Leys, Mr. Kendall recovered a verdict for \$100,000 against the New York Central railroad, which is said to be the largest verdict on record in a personal injury action. He organized the Branden Copper company, which is now part of the Kennecott Copper company, one of the largest corporations of its kind.

HAT CAUSES ARREST
Coldwater Man Fires at Intruder
Trying to Enter His Home.

News-Times Special Service:
COLDWATER, Mich., Aug. 30.—Don Filley of Coldwater is in the county jail as a result of attempted burglary. Oliver Olinger discovered someone entering his house and fired a 32 calibre revolver shot at him, penetrating his hat, which was found on the ground. Sheriff Ralston was notified, a blood hound secured at Pleasant Lake, Ind., and before daylight Filley was arrested at his own home. The arrest may solve the many recent burglaries.

PRICES ARE ADVANCED
Bread and Milk Men at Petoskey
Increase Rates on Products.

News-Times Special Service:
PETOSKEY, Mich., Aug. 30.—Milk dealers combined here and raised the price from seven to eight cents per quart. They say they were losing money at the old price.

Bakers advanced the price of bread in Petoskey 20 per cent, laying the blame on the advance in flour prices. Ten cent loaves now cost 12 cents and five cent loaves cost six cents.

STATE GOVERNMENT
BOOSTED BY ADAIR

Candidate for Governor Says
That Strictest Economy
Has Been Observed.

News-Times Special Service:
RICHMOND, Ind., Aug. 30.—John A. M. Adair, democratic candidate for governor of Indiana, concluded a two-days' tour of Wayne county Tuesday afternoon, with an address at the Richmond chautauqua. Most of the 900 holders of season tickets to the chautauqua were present and several hundred others were attracted to the park by reason of the "Democratic day" observance.

Mr. Adair, in his speech, defended the state administration, dealing in generalities, but did not attempt to take up specifically the various statements made by James P. Goodrich, the republican candidate. He scored Charles E. Hughes, the republican candidate for president, for his attacks on Pres't Wilson and said that the administration of Wilson had been firm, just and sound.

"I have about reached the conclusion that it is useless for me to undertake to answer the statements relating to the state government as made by my opponent in the race for governor," Mr. Adair said. "These statements I get from the newspapers and if the newspapers are correct my opponent has gotten his figures considerably mixed. But, of course, the newspapers may have misquoted him, and he should not be responsible for that. I again repeat that there has been the strictest economy in the affairs of the state under the present democratic administration, notwithstanding the evasive and misleading statements of my opponent. The administration of Gov. Ralston has been wholesome and so far above criticism that no man can find fault with it. The state officers have been efficient, economical and painstaking. With a lower tax rate for general purposes the state debt inherited from the republicans has been entirely wiped out."

Mr. Adair spoke Monday at Greensfork, Fountain City, Economy, Hagerstown, Centerville, Abington, Milton and Cambridge City. When Mr. Adair reached Fountain City 500 hogs were being driven through the main street, and the candidate helped the drovers with the swine.

In his address at Cambridge City Mr. Adair referred frequently to the connection of James P. Goodrich with public utilities, and said that if Goodrich were elected governor he would be in a position to name a public service commission that might be called on to fix rates for his own concerns.

Mr. Adair said he believed he saw a striking parallel between present conditions and during the Civil war days. "When Abraham Lincoln was a candidate for president it was the duty of patriotic democrats to vote for him," said Mr. Adair, "and today it is the duty of patriotic republicans to support our other great president, Woodrow Wilson."

"SPIKED" WATER IN USE
AT CHAUTAUQUA BARRED
Whiskey Barrel Is Used and Gives
Liquor Taste to Drink.

News-Times Special Service:
BRAZIL, Ind., Aug. 30.—Advocates of strict temperance are objecting to the method of serving water at the Brazil chautauqua, which now is in progress.

In order to have iced water, city water was run into an elevated barrel filled with ice and let out through a spigot. A whiskey barrel was obtained for the purpose, and all the water is so strongly flavored as a result that many people thought that it had been "spiked" by some young men as a prank.

The water was used Monday in the hope that the barrel would become thoroughly washed out, but the flavor is still present.

EXPECT MAN TO DIE
Third Victim of Kalamazoo Race
Accident in Critical Condition.

News-Times Special Service:
KALAMAZOO, Mich., Aug. 29.—Kalamazoo has seen its last automobile race unless another organization promotes the enterprise. That was the declaration of Secretary William Engelman of Recreation park. The frightful accident Sunday afternoon cost two lives and will probably end in another death before many more hours pass, besides injury to eight people. "It was a horrible thing and I will in no way be connected with another enterprise which will furnish an opportunity for such an ending," declared Mr. Engelman.

An inquiry conducted into the accident by Coroner R. U. Adams placed the blame for the accident upon no one. Fifteen witnesses were questioned and all told conflicting stories as to just how the accident happened. There is no doubt but that two of the racing cars came together on the turn and then the pile-up began.

P. E. Marquette is still alive but doctors say there is not the slightest chance for his recovery. Officers say that the inquiry made shows no criminal responsibility of any kind and no further action will be taken. All of the other injured are recovering.

CAPITAL HAS ENOUGH
FOOD FOR THREE DAYS

Nothing will be Sold to Merchants
Unless Payments Are Made
in Advance.

News-Times Special Service:
INDIANAPOLIS, Ind., Aug. 30.—That there is a supply of perishable goods in Indianapolis sufficient to last only a week was the estimate made by local commission dealers. They declared that in case the railway brotherhood men go out on strike no goods will be sold to the trade except when cash is paid in advance of delivery. Canned goods, which seems to be plentiful for the emergency, has been bought by local dealers, who say, however, that much of it is now in transit and some doubt their orders will arrive soon. At local offices of the railroads no announcement was made relative to the various roads' plans in establishing embargoes on freight shipments of various kinds.

ATTORNEY APOLOGIZES
AND LEAVES COUNTY BAR

Begs Court's Pardon After Being
Cited to Appear for Contempt.

News-Times Special Service:
TERRE HAUTE, Ind., Aug. 30.—Ira Burge, an attorney who came here from Greene county last year, was cited to appear before Judge Newton in the city court Monday to answer to a charge of contempt for remarks he is accused of having made reflecting on the court. He made a public apology for the remarks, and Judge Newton dropped the action. Burge then tendered his resignation as a member of the bar and asked that it be presented to Judge Pulliam in the circuit court in the September session which opens Monday.

FIGHT IS ON TO PUT
BLOOMINGTON WET AGAIN

William Jennings Bryan Rejects In-
vitation to Help Drys Keep
in Power.

News-Times Special Service:
BLOOMINGTON, Ind., Aug. 30.—William Jennings Bryan, who received by the "drys" leaders rejected an invitation to come here and deliver a speech in behalf of their cause. He added, however, that "of all places a college town should be kept dry." Pres't William L. Bryan of Indiana university, will out short his vacation and return here to participate in the campaign in behalf of the "drys."

INTERCEDE FOR E. J. LEE

Prisoner Who Escaped from Mich-
igan City Held in New York.

News-Times Special Service:
INDIANAPOLIS, Ind., Aug. 30.—Organizations and individuals interested in prison reform work are interceding in behalf of Edward J. Lee, the trusty who escaped from the state prison at Michigan City and who is held in New York city awaiting return to the prison. Gov. Ralston is expected on his return from Washington, D. C., to consider eight telegrams and a letter received at his office today, protesting against Lee's being returned to prison. The protests are based on claims that Lee is a victim of the contract labor system.

STATE BRIEFS.

News-Times Special Service:
MANISTEE, Mich.—The German Arbeiter society will celebrate the 51st anniversary of the founding of the society Sunday, Sept. 3.

News-Times Special Service:
OWOSSO, Mich.—D. W. Merrill of Flint, a traveling salesman, is under arrest on the charge of obtaining money through misrepresentation.

News-Times Special Service:
DETROIT, Mich.—Dwight T. Warner, Lansing lawyer, who drafted the Warner-Cramton law for regulating the liquor traffic in the state, will be campaign manager for the Michigan Home Rule league.

News-Times Special Service:
CHARLOTTE, Mich.—Daniel Hickey may fight the order given by State Deputy Fire Warden Robinson to tear down what is known as the Bailey row of buildings.

News-Times Special Service:
KALAMAZOO, Mich.—George Little, a teamster, was stabbed in a row over \$2,000 by Roy Peat, who has been lodged in jail awaiting the outcome of Little's condition.

News-Times Special Service:
KALAMAZOO, Mich.—May Wood, 28 years old, was released from jail even though she made two unsuccessful efforts during the night to end her life. The woman had been arrested on a disorderly charge and was released on probation.

News-Times Special Service:
JACKSON, Mich.—Master bakers of Jackson at a meeting voted unanimously to increase the price of bread at six and 12 cents per loaf.

News-Times Special Service:
CADILLAC, Mich.—George E. Mikesell has brought suit against the Wells-Fargo Express Co. for \$1,000 for false arrest on charges of embezzlement.

Sante Fe Orders
Embargo at Once
On Perishable

TOPEKA, Kas., Aug. 30.—The Atchison, Topeka & Santa Fe railway today placed an embargo on all shipments of perishable goods and livestock, effective at once, according to a statement issued from the office of J. R. Koontz, general freight agent. The order also states the company will not take the responsibility on other shipments.

The order affects the entire railroad system. Mr. Koontz said, and will remain in effect until further notice. The threatened nation-wide railroad strike was said to be responsible for the order.

Under the order the railroad will refuse to accept shipments of livestock, butter, eggs and similar commodities.

The order will eliminate the use of all refrigerator cars, it was said, and will directly affect melon and fruit shippers, who are now in the midst of their shipping season, as well as stock raisers with fattened animals read for market.

DRYS WIN AT EDINBURG

Wets Have Made Unsuccessful Effort
For Eight Years.

News-Times Special Service:
EDINBURG, Ind., Aug. 30.—The "drys" won the local option election in Blue River township held Monday, by a majority of 32 votes, according to unofficial tabulations. The "wets" have conducted unsuccessful fights to win the township in which the towns of Edinburg and Amity are situated during the past eight years.

RALSTON ON COMMITTEE

Executive Named to Help Notify
Vice Pres't Marshall.

News-Times Special Service:
INDIANAPOLIS, Ind., Aug. 30.—Gov. Ralston was Tuesday selected as temporary chairman to serve at the notification of Vice Pres't Thomas R. Marshall here on Sept. 14. The governor will introduce former Gov. Glynn of New York, who is to deliver the notification address.

REMOVE KAISER'S TABLETS.
International News Service:
ROME, Aug. 29.—All the tablets commemorating the kaiser's visits to Rome were removed today by the Italian government.
